

PREMIUM SCHOOL SUBSCRIBER

NAIS Premium School Subscriber affiliation is open to pre-collegiate, for-profit schools located in the U.S and non-profit, independent schools located outside the U.S. All schools must be of an independent governing body regardless of exemption status.

NAIS primarily serves as the national voice for independent education and as a center for collective action on behalf of its members, which comprises more than 1,400 U.S. independent schools that have met criteria for full membership. Further, NAIS is committed to affiliation with all pre-collegiate educational institutions seeking to provide a high quality education. In that spirit, we welcome schools to be part of an extended community as Premium School Subscribers — Premium School Subscribers benefit from affiliation with NAIS through its information, standards, and networking and training opportunities. They have access to many of the benefits that members receive.
