

## School Subscriber Application

NAIS **School Subscription** is open to any school (including public or for-profit) that does not meet the criteria for NAIS membership, but would benefit from NAIS's information and services.

*NAIS serves as the national voice for independent education and as a center for collective action on behalf of its members, which comprise more than 1,380 U.S. independent schools. NAIS sets standards, produces materials, conducts research, and provides professional development and networking opportunities to help independent schools advance their causes. Further, NAIS is committed to dialogue and affiliation with all pre-collegiate educational institutions seeking high quality of education for those they serve. In that spirit, we welcome other schools to be part of an extended community as **School Subscribers**.*
